

# WARIS OLOYEDE

## Software Engineer

Software engineer with over 6 years of experience building fast, scalable, and user-focused web and mobile applications. Skilled in React, React Native, Next.js, Node.js, and TypeScript, with a strong focus on clean architecture, performance, and exceptional user experiences. Passionate about solving complex problems, writing maintainable code, and delivering high-quality products that create real business value.

### PROFESSIONAL EXPERIENCE

#### Co-founder / Software Engineer, Sphere NG

June 2024 - Present

Sphere is an on-demand logistics and supply chain platform in Nigeria that connects users with nearby drivers to move bulk goods, furniture, and business stock

- Built Sphere from the ground up, leading development from concept to MVP over three years.
- Owned the full software development lifecycle, including mobile apps, backend systems, APIs, and infrastructure.
- Launched the product on both Google Play Store and Apple App Store while driving ongoing product improvements.

#### Frontend Engineer, Myxellia

May 2023 - Present

Myxellia is an ever-evolving cloud based infrastructure of interconnected apps and services, built to make real estate work better for all

- Developed Next.js applications that streamline operations for real estate developers.
- Built custom solutions for clients including Mainstone and Doorhive
- Created reusable UI components and optimized application performance, scalability, and user experience.

#### Mobile Engineer, EstateIQ

September 2023 - June 2025

EstateIQ offers a secure, convenient, flexible way of controlling who has access to your building and when access is allowed.

- Developed and enhanced mobile features for estate management, security, and resident services.
- Implemented modules for access control, visitor management, billing, payments, and emergency alerts.
- Improved application reliability, functionality, and user experience through continuous enhancements.

#### Full-stack Developer, Anli Solutions

June 2025 - January 2026

Anli solutions is a modern, cloud-based platform designed to help hotels and hospitality businesses streamline operation

- Developed accounting and reporting modules for a hotel and restaurant management platform.
- Built features for sales, purchases, staff management, and operational reporting.
- Developed backend APIs to support seamless frontend integration and data flow.

#### Mobile Developer (Contract), Edubaloo

December 2023 - April 2024

Anli solutions is a modern, cloud-based platform designed to help hotels and hospitality businesses streamline operation

- Developed accounting and reporting modules for a hotel and restaurant management platform.
- Built features for sales, purchases, staff management, and operational reporting.
- Developed backend APIs to support seamless frontend integration and data flow.
